

# **The American Society of Plumbing Engineers**

NONPROFIT ORGANIZATION

CENTRAL OHIO CHAPTER www.central-ohio.aspe.org

P. O. Box 2571 Columbus, OH 43216-2571 Chapters are not authorized to speak for the Society

#### March 2023

#### **President's Report**

I hope everyone is enjoying that last couple weeks of winter. Though it seems as if Buckeye Chuck and Punxsutawney Phil were off with their winter prognostications.

The 2023 Central Ohio ASPE Scholarship application was sent out last month and there is also a link within this newsletter. The Chapter will be awarding a minimum of two \$1500 scholarships to college students, technical school students or high school seniors which will be enrolled full time in an engineering related program this fall. Applications are due by Friday April 21, 2023.

We have now formed our National Convention Committee for the 2024 ASPE Convention here in Columbus. Though if you are still interested in joint the committee, it isn't too late. Let me or one of the other board members know.

We will be holding our bi-annual elections for the ASPE board during the May meeting. If you are wanting to become more active in our chapter, this is a great opportunity. If you are interested, reach out to me or any other current board member.

There are several education and certification courses that ASPE is planning on offering:

- Green Plumbing Design (GPD) Program Online course and certification test for the
  GPD credential. You must be either be a
  Certified Plumbing Designer or a Professional Engineer to be eligible to earn the GPD.
  The cost is \$500 for ASPE Members, \$600
  for non-ASPE Members.
- The CPD Exam is rescheduled for April 10

(Continued on page 3)

## March In Person Lunch Meeting and Technical Presentation March 13th, 2023

#### In Person

Raymond Memorial 3860 Trabue Road Columbus, OH 43228

11:30 PM-1:00 PM

\$25.00 — members; \$35.00 — non-members

**SUBJECT: Polymer Special Waste** 

**Systems** 

SPEAKER: Paul Gavin -

**Georg Fisher Manufacturing** 

Seminar to be presented as a primer for understanding specification and design of special waste piping (singe wall, double wall, etc). Topics covered, a) codes/standards which are the basis of design to ensure clients' facility will met all respective codes, standards and AHJ sewerage discharge requirements. b) material and joining method selection c) single wall vs. double containment d) design of special waste treatment systems.

Paul has been a member of the Boston Chapter of ASPE since the late 1970's, Paul G. Galvin is the Business Development Manager, Life Science/Institutional for GF Piping Systems LLC. He has been involved with design and installation of Special Waste Piping, Special Waste Neutralization and Process Water Piping Systems for over 35 years.

Paul authored an article "Plumbing Design 101, Special Waste Piping Systems" for the ASPE PS&D magazine. He co-authored an article for UPW (Ultra Pure Water) magazine titled "Advantages of Recirculating Faucets to Contain POU Microbial Contamination", which was also presented as a paper at the UPW 2014 meeting.

Paul currently serves as a member of the "Sub-Committee on Polymers and Elastomers" for the ASME Bio-Processing Equipment Standards Committee.

## HUSKY CR 7000 HUSKY CR 7000 THE NEWEST MEMBER OF OUR PACK.

First Heavy-duty coupling for corrosive applications

The first of its kind, the Husky CR 7000 is made with 316 stainless steel to perform better than any others in highly corrosive environments.

Represented by:

ChooseHusky.com

#### **VP Technical—Bill Deardurff**

Hello to all ASPE Members and friends,

The March speaker will be Paul Galvin with Georg Fischer to discuss Polymer Special Waste Systems.

Please send me any ideas for speakers or topics for next year's meetings.
We are scheduled through Sept. of 2023.

**Bill Deardurff**Vice President Technical

(Continued from page 1)

thru 21 via remote proctor. Registration for the exam is now open. The cost is \$450 for ASPE Members and \$675 for nonmembers.

A reminder of other upcoming events:

- 2023 Ohio Construction Conference is scheduled for Wednesday March 15th at the Ohio Union at OSU. ASPE is a Supporting Organization for this conference.
- Further out, the 2023 ASPE Symposium is September 28-October 1, in Bellevue, Washington. The Symposium is the premier opportunity for plumbing engineers and designers to engage in productive technical exchanges and networking. Registration for the event will open in April.

And finally, a reminder that this Saturday, March 11th is World Plumbing Day.

Mike Nickoson
President

#### **VP Education—Brad Fitzsimmons**

#### Upcoming Webinar – 2023 CPD Review Class

Webinar takes place over all 3 dates.

- February 18, 2022, 11:00 AM (EST)
- February 19, 2022, 11:00 AM (EST)
- March 25, 2022, 11:00 AM (EST)

Are you considering taking the <u>Certified in Plumbing Design (CPD) Exam</u> in the future? Have you been unsuccessful in passing the exam in the past? Join ASPE for these virtual review classes where the instructors will cover topics such as:

- A review of <u>CPD Study Guide</u>
- Q&A about the exam
- Key terms and definitions
- Review of the five domains (Gathering Information, Administration, Design, Specifications, and Construction Services)

The workshop includes a CPD practice test on the last day of class (a \$50 member value). This class is not a plumbing design 101

course, and it is not intended to teach students the material required for the exam. This class helps students learn HOW to study for the exam. Because there will be a high-level overview of the domains and content areas, this class will enable students to become aware of areas they need to focus their attention on leading up to the exam. In turn, this class will be helpful to students in their preparations for the exam.

This event will be held over the course of three days each for a period of 5 hours. The instruction time is roughly 4 hours per session, plus breaks, for a total of 5 hours. Students will take the CPD Practice Exam on the last day then discuss. Partial registration is not available. What should you bring to the virtual review class?

- The calculator you intend to use during the CPD Exam (Candidates can bring in and use any non-programmable calculator into the exam.)
- Any reference materials you intend to use during the exam (review the Open-Book

## O" SmartPress

- · one material, maximum efficiency (AISI 316)
- · wide range of 1/2" through 2" fittings and valves
- · up to 500 psi operating pressure
- · temperatures ranging from -31°F to +446°F
- silicone-free production process
- · patented 'smart' sealing element technology
- · Leak Before Press\* technology
- Visu-Control<sup>™</sup> foil technology
  - color-coded materials and size
  - visual press indication
- · patented pre-marked insertion depths

#### Apollo® SmartPress, the smartest press system for stainless piping

Ultra-modern manufacturing technology meets proven product design expertise with the all new Apollo\* SmartPress fitting and valve product offering. Apollo® SmartPress is an innovative IPS press connection system designed for joining 1/2 through 2" ASTM A312 stainless steel in combination with schedule 5S and 10S piping systems (type 304/304L or 316/316L).

All Apollo SmartPress products come equipped with a patented 'smart' sealing element. The special geometry creates both a grip function to prevent fitting from falling off pipe, as well as immediate tactile detection of the sealing element upon pipe insertion. In addition to this, the sealing element incorporates built-in Leak Before Press® technology and is manufactured and assembled within a silicone-free production process.

#### 3x safety assurance

- Leak Before Press\* technology
   Visu-Control\* foil color coded materials
- Visu-Control" foil press indication

#### Miscellaneous and FAQs

- CEUs/PDHs are not awarded for this class.
- Each class consists of three days of training.
   See times at the top of this page for dates/times, or the respective class pages.
- Participation in this class is not a guarantee to pass the CPD or CPDT Exam.
- Participation in this class does not include CPD or CPDT Exam registration.
- Registration closes the week prior to the start of the class.
- Classes are virtual and held via ASPE Education / Zoom.
- Registration is not available for partial class participation.
- Registration is NOT transferable.
- Questions? Email certification@aspe.org

#### **ASPE Read Learn Earn**

Every month ASPE publishes a new 12-question quiz with an accompanying chapter or article from one of our publications. Each quiz is available for twelve months. Each quiz is free for ASPE Members and \$35 for nonmembers. Through this special series, ASPE can help you accumulate the CEUs required for maintaining your Certified in Plumbing Design (CPD) or Certified Plumbing Design Technician (CPDT) status or numerous regulatory-agency CE programs.

March – Acoustics in Plumbing Systems
Visit <a href="https://education.aspe.org/RLE">https://education.aspe.org/RLE</a> to register

#### **On-demand Webinars**

Did you know? You can register for ASPE Webinars that you may have missed. Visit <a href="https://education.aspe.org/on-demand-webinars">https://education.aspe.org/on-demand-webinars</a> to register and view the library.

#### **ASPE Book of the Month**

Through March 31, 2022, you can purchase the

softcover version of *Advanced Plumbing Tech-nology II* for 15% off the regular member price. Just enter coupon code **worldplumbing-day** when you check out.

#### The fine print:

- Discount is only available for ASPE members.
- Discount can only be used on the softcover version of publications.
- If purchasing multiple items, the discount will be applied only to the assigned publication.
- The coupon code can only be used once. The coupon code cannot be used on top of the Chapter Officer discount.

Check <u>ASPE Pipeline</u>, social media, and your inbox for news of upcoming Book of the Month discounts.

#### PLUMBING SYSTEMS: COMMERCIAL IRONHEART PR

SyncroFlo

Pumping System Solutions

400 E. WILSON BRIDGE RD. ST.F WORTHINGTON, OH 43085 614-882-1916 ASK FOR CARL, JIM, RON, JOE OR GENA.

CONTACT INDUSTRIAL SALES CO. FOR SIZING, SPECIFICATIONS, DRAWINGS OR QUOTATION. WORK WITH LOCAL DESIGN ASSIST AND FIELD START-UP, TRAINING AND SUPPORT.

#### FOR WHERE IT REALLY MATTERS

SyncroFlo is based in Norcross, GA with over 50 years of experience manufacturing packaged pumping systems and the first to prepackage pumping systems for boosting pressure in domestic water distribution systems. The "IronHeart," which has been the core of our business since 1985, has been the industry standard for pressure boosting domestic water in commercial buildings. We offer 32 standard models featuring close coupled end suction pumps configured in duplex and triplex models with flow rated to 750 GPM and boost pressures to 190 PSI.

#### WHY A SYNCROFLO PRE PACKAGED SYSTEM?

All SyncroFlo IronHeart systems are manufactured to the highest standards within the 155,000 square foot facility. SyncroFlo has a superior Quality Management System that is ISO 9001:2015 certified. All systems bear the UL & ETL labels and are certified to UL 778 and UL 508A standards. All our domestic water systems including the IronHeart line are NSF/ANSI 61, 372 & Annex G certified for drinking water applications. Control panels are assembled in a UL 508A panel shop with a QR (Quick Reference) code identification for web based access to the project documents. All systems are factory tested in a NIST traceable test stand and the results are recorded for generation of an XY plot.

#### **QUALITY CONTROL AND TESTING!**

SyncroFlo's quality control program is on the leading edge of technology for our industry. Each system is tracked at all stages of manufacturing, assembly, and testing with web based reporting via hand held devices. All welding is performed by AWS or ASME qualified welders. Once manufacturing and assembly are complete, the system is connected to our NIST calibrated test rig. We then hydrostatically test and flow test from zero to 100% of design and under specified suction and net delivery pressures. Once on site, your only surprise is how easy the system is to startup and commission.

#### Ohio BBS Memo - Ohio Proposes to Update to 2021 International Code in 2024

The Board of Building Standards proposes to update the Ohio Building, Plumbing and Mechanical Codes to the 2021 edition of the International Code with amendments. The proposed draft rules are available for review and comment.

The draft rules along with information on how to submit comments are available here: (https://com.ohio.gov/divisions-and-programs/industrial-compliance/boards/board-of-building-standards/building-codes-and-interpretations/proposed-2024-ohio-building-mechanical-and-plumbing-code-rules)

## Ohio BBS Memo - Storm Shelter Moratorium Update

The Board of Building Standards has updated its BBS Memo regarding the moratorium for storm shelters in Group E occupancies to include the following:

December 2022 Update: The moratorium in R.C. 3781.1010 which prohibited the Board's rules from requiring the installation of a storm shelter in any school building operated by a public or private school expired on November 30, 2022. The moratorium also expired for any school building undergoing or about to undergo construction, alteration, repair, or maintenance unless "financing has been secured" prior to November 30, 2022. The Ohio Attorney General issued Opinion 2019-027 in response to the Board's request for guidance on the meaning of "financing has been secured" in R.C. 3781.1010. The Opinion is available here (https://www.ohioattorneygeneral.gov/ getattachment/32ebe778-a585-43a5-8df5-2e553c2a3730/2019-027.aspx)

If you have questions related to information contained in the Memo, please contact the Board's technical staff at 614-644-2613 or at bbs@com.state.oh.us

## Ohio BBS Memo - Definition of a Registered Design Professional

The Board was recently requested to provide clarification to the definition of registered design professional in the Ohio Building Code. Currently, the code defines registered design professional as "Any architect holding a certificate issued under sections 4703.10 and 4703.36 of the Revised Code or any engineer holding a certificate issued under section 4733.14 of the Revised Code."

Revised Code § 4703.10 addresses the certificate to practice architecture issued by the State Board of Examiners of Architects while § 4703.36 addresses the registration of landscape architects with the Ohio Landscape Architects Board. Finally, Revised Code § 4733.14 addresses registration of professional engineers by the State Board of Registration for Professional Engineers and Surveyors. The scope of practice of these professions are regulated through their respective Boards, and certi-

# DIGITAL-FLOTM SEMI-INSTANTANEOUS STEAM/WATER HEATER

#### Pre-Piped Digital Hot Water Generation & Control Solutions

- Featuring The Brain ASSE 1017 certified digital recirculation valve.
- Choose from 16 standard assemblies or customize.
- Compact vertical design small footprint.
- · Simple tube bundle access.
- Optional SAGE<sup>™</sup> Building System
   Interface with integral data logging to support AHSRAE 188 monitoring and reporting compliance.
- Water temperature raised above Legionella survival levels on every recirculation cycle.

Since 1917, Merlo Energy has been a manufacturer's representative and stocking distributor of steam, condensate, hot water, and air specialty products. More than just products, we pride ourselves in being a full solution provider for our customers. Focused on energy conservation, Merlo Energy provides services to help you reduce your energy costs.

Contact Us Today! 800-362-4994

(Continued from page 9)

fied building department personnel should not reject construction documents solely based on questions regarding use or appearance of a professional seal or scope of practice. These matters and all others involving regulation of the profession should be referred to the appropriate registration Board.

Ohio Building Code (OBC) § 106.2.1 requires construction documents bear the seal of a registered design professional, but there are important exceptions to this requirement. Please review these exceptions to remind yourself of these options afforded an owner particularly those projects that do not involve technical design analysis as defined in this section. If a seal of a registered design professional is required on construction documents, then building department personnel should verify that the person is in fact registered by the appropriate registration Board. This can be done through Ohio eLicense Look-Up. Discrepancies should be reported to the appropriate registration Board and included in an adjudication order per OBC § 109 like any other item of noncompliance.

Additionally, if a seal of a registered design professional is required on construction documents, then any profession discussed above may submit sealed documents. To provide this clarification, the following revision to the definition of registered design professional has been approved by the Board for incorporation into the code in the next update:

REGISTERED DESIGN PROFESSIONAL. Any architect holding a certificate issued under sections section 4703.10 and of the Revised Code, any landscape architect holding a certificate issued under section 4703.36 of the Revised Code, or any engineer holding a certificate issued under section 4733.14 of the Revised Code.

These amendments are solely for clarification purposes and do not expand or change the intent of the application of the definition today

#### ICC Launches New Revit Add-In

The International Code Council has announced

the release of the ICC Digital Codes Premium Revit® Add-In (https://codes.iccsafe.org/revit). The new add-in allows architects, designers, engineers, and building safety professionals to access and reference building codes and standards directly from within Autodesk Revit.

The Open API integration provides side-by-side access to ICC Digital Codes Premium, enabling design professionals to validate construction plans with authorized building codes and standards during the design process itself.

The add-in is compatible with Autodesk Revit 2023, Autodesk Revit 2022, and Autodesk Revit 2021 on 64-bit Microsoft® Windows® 10 or Windows® 11 operating systems and is available on both the Code Council website and the Autodesk App Store.

ICC Digital Codes Premium Revit Add-In is available to existing Premium Complete subscribers. To learn more, visit https://codes.iccsafe.org/revit.

#### Hydraulic Institute (HI) Launches Pump Savings Calculator

The Hydraulic Institute (HI), the largest association of pump manufacturers in North America, announces its Circulator Savings Calculator as a free tool for users to estimate energy savings and financial payback from efficient circulator pump selection. The calculator utilizes data from HI's public Energy Rating database, er.pumps.org, to provide the most up-to-date savings calculations based on currently listed circulator models.

The Circulator Energy Savings Calculator estimates the energy savings for specific circulator pumps and domestic hot water recirculation pumps. Users have two options to calculate savings, with information from an HI Energy Rating Label or by entering size and control types.

For the Hydraulic Institute's complete Energy Rating Program, training, certification programs, and standards, please visit pumps.org/resources/energy-efficiency.

#### 2023 ASPE-Central Ohio Chapter Scholarship Application

The American Society of Plumbing Engineers (ASPE) was founded in 1964 as an organization dedicated advancing the plumbing engineering profession, assisting the professional growth and advancement of its members, and protecting the health, welfare, and safety of the public.

#### Minimum of two (2) scholarships will be awarded:

**ASPE Central Ohio Chapter Scholarship**: \$1,500.00 – The scholarship honors the membered Plumbing Engineers past & present.

Matt Martinkovich Memorial Scholarship: \$1,500.00 – The scholarship is in memory of Matt Martinkovich who was a member of ASPE Central Ohio Chapter. He was a well-respected friend and associate in the Plumbing Industry. Matt passed away unexpectedly in October of 2020.

Full-time and part-time students are eligible to apply for this scholarship.

The eligible individual must be:

- A. Enrolled, as of the application year, as a full-time or part-time student in a college, university or technical school and
  - Have maintained a minimum overall grade point average of 3.0 on a 4.0 grading scale; or its equivalent; and
  - b. Plans to attend a college, university, or technical school on a full-time or part-time basis as of the fall semester of the application year; and
  - c. Is enrolled in a school or program of engineering

OR

#### B. A senior high school student who:

- a. Will graduate as of June of the application year; and
- b. Has a minimum grade point average of 3.0 on a 4.0 grading scale; or its equivalent; and
- c. Plans to matriculate into a college; university or technical school on a full-time or part-time basis as of the fall semester of the application year; and
- d. Has been officially accepted by a college, university or technical school on a full-time or parttime basis as of the fall semester of the application year; and
- e. Plans to enroll in a school or program of engineering

Applicants are evaluated on the following criteria:

Academic achievement Community and school involvement Student's field of study Quality of the application

Applications must be **complete and accompanied by a SCHOOL ISSUED TRANSCRIPT** for Consideration. Official transcripts will be returned upon request – please include a self-addressed, stamped envelope. You may choose to print an unofficial transcript from the school website. If so, be sure to include your entire coursework history through January 1, 2023.

## Applications must be received by the ASPE Central Ohio Chapter no later than FRIDAY APRIL 21, 2023.

Email completed application and required documents to: hcromer@steffens-shultz.cm

Please make sure your complete application is received on time for consideration.

If you have questions, please contact Hanse Cromer by email at hcromer@steffens-shultz.com.

Recipients will be notified of their awards by May 12, 2023.

Checks will be mailed to the student no later than June 1, 2023.

#### **VP Membership—Tim Firlik**

March Madness is approaching and now is the time to think about the upcoming 2024 ASPE National Convention hosted by Columbus! Soon we will be looking for volunteers for the planning and execution of this great event! Please get with a board member today if you are interested in helping in any way.

The Central Ohio Chapter of ASPE is looking for new members! Do **YOU** know of any?? Anyone that would benefit in Plumbing Technical Publications – Plumbing Convention and Technical Symposiums - Certifications in Plumbing Design – Plumbing Codes and Legislation – Continued Education Programs and networking with peers throughout the plumbing industry. Please send them my email address and we'll get them signed up with this great organization. tfirlik@cmta.com

Membership renewal! If you are up to renew your membership, remember to do it today! We don't want to see you go!! There is a new option to be apart of multiple chapters! If you are interested, please keep The Central Ohio Chapter as your home chapter and signup for as many others as you wish for only \$80 per chapter. You can also take advantage of Multiple-Year Membership Renewal.

Save on your ASPE membership dues if you join or renew for more than one year!

- 5% Discount for a two-year renewal.
- 10% Discount for a three-year renewal.

#### BENEFITS OF MEMBERSHIP

Becoming a member of the Central Ohio ASPE Chapter provides the following benefits:

- ASPE Plumbing Engineering Design Handbook
- Bi-monthly subscription to Plumbing Systems & Design magazine
- ASPEReport (in Plumbing Engi-

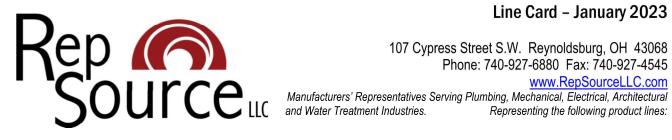

- neer magazine)
- Members Only ASPEnet Access (includes access to ASPE Data Books chapters)
- Publications and Education Programs Discounts
- ASPE Biennial Convention and Exposition (even years)
- ASPE Biennial Technical Symposia (odd years)
- Technical Seminars and Workshops
- Access to Earn Continuing Education Units (CEUs)
- Technical Books and Manuals (specific to the profession of plumbing engineering)
- Professional Certification / Recertification
- Continuing Education Opportunities in Plumbing Engineer magazine
- Alfred Steele Scholarship Program
- Local Chapter Affiliation
- Monthly Chapter Meetings and Technical Seminar Opportunities
- Networking Opportunities with Plumbing Engineers Worldwide
- Leadership Opportunities (Board of Directors, Region Chairs, Chapter Officers, Committees)

Please remember if any of your pertinent information has changed that it is your responsibility to notify ASPE National and The Central Ohio Chapter. You'll want to do this in order to remain on our mailing list.
