

DEC - MEETING AGENDA

DATE:

TUESDAY, DECEMBER 12, 2023

WHERE:

Plumbing Industry Training Center
in Troy, MI

5:00 PM - 5:50 PM

Storm System Design

5:50 PM - 6:15 PM

Vendor Table Top Presentations

6:15 PM

Dinner Service

6:30 PM - 7:30 PM

Panel Discussion on Water Treatment

REGISTRATION REQUIRED

IN-PERSON: <https://www.eventbrite.com/e/767747372057?aff=oddtcreator>

SEE INSIDE COVER FOR TABLE OF CONTENTS

William Grayzar, CPD, GPD, FASPE President of ASPE EMC

I hope everyone had an enjoyable Thanksgiving Holiday and enjoyed time with family and friends.

As we move into December and we start making out plans for the Christmas Holidays, remember to add our **December 12th** meeting to your calendars. The meeting will be held at the Plumber 98 and MCA Detroit Training Center (PITC) located at 1911 Ring Dr. in Troy, MI 48083, as usual, and will begin promptly at 5:00 PM with our Design

Class covering “**Storm System Design**” followed by dinner and our Technical Session which will be a panel discussion on “**Water Treatment**”. The panel will consist of representatives from R.L. Deppmann Co., Rapid Water Technologies, and DuBois Chemicals. At a minimum will be discussing various water treatment technologies including high temperature flushing, copper/silver ionization and nano bubble generators. I am sure this is a discussion you won’t want to miss!

Going back to storm drainage. Unlike a sanitary sewer system in which drainage from the fixtures is collected in drains and piped to a wastewater plant for treatment, runoff from rainfall events and snow melting generally flow unimpeded and untreated through the environment. Storm piping systems collect water run-off from impervious surfaces such as roof and parking lots and transport the water to a safe location for release back into the environment. This could be a reservoir, lake, stream, retention basin, etc. In urban areas, runoff can be rapid, leading to flooding. In addition, storm water can carry pollutants into natural water bodies, which include chemicals, debris, and sediment. These pollutants can harm aquatic ecosystems, degrade water quality, and disrupt the balance of delicate ecosystems. It is important to understand what is being introduced into the storm water system. Also, improperly sized storm water drainage systems can lead to flooding and damage to buildings. If you want to know how to properly design and size a storm water system come to the December Design Class.

Lastly, here is a little Christmas trivia you can share with your family and friends this Holiday. Did you know that During World War II, the United States Playing Card Company joined forces with American and British intelligence agencies to create a very special deck of cards.

President's Report (cont. from page 1) Bill Grayzar, CPD, GPD

They distributed them as Christmas gifts to soldiers, but they also helped Allied prisoners of war escape from German POW camps. When wet, individual cards peeled apart to reveal pieces of larger maps of escape routes. Other cards contained instructions about places to avoid or landmarks to look out for. That is a gift I hope you or I never have to open.

I wish everyone a safe and happy holiday and I look forward to seeing you at the Plumbers 98 and MCA Detroit Training Center (PITC) on December 12, 2023.

Bill

**LATEST NEW MEMBER
~ WELCOME ~**

KEITH FRANK**

DECEMBER DESIGN SESSION

5:00-5:50 PM

TOPIC: Storm System Design

Presenter: **WILLIAM GRAYZAR**, CPD, GPD, FASPE
DiClemente Siegel Design / ASPE EMC President

William Grayzar

Mr. Grayzar is the president of the Eastern Michigan Chapter of ASPE. He has over 35 years of experience in architecture and engineering. Employed with DiClemente Siegel Design Inc. for over 20 years, Bill continues to enhance his system engineering skills through additional vocational field training. Bill has an excellent working knowledge of Michigan's current building codes and regulations. Bill holds an Associate's Degree of Architectural Technology from Delta College and certifications in Plumbing Design and Green Plumbing Design from ASPE. Bill is active with the National Society of ASPE serving on numerous committees. Bill also serves as the current President of the Code Study and Development Group of Southeast Michigan and is a member of National Fire Protection Association. Bill received the Michigan Chapter of ASPE award as Engineer of the Year in 2013.

Description: In this presentation we will review storm water drainage system design considerations, options for primary and secondary drainage systems, and the 2018 Michigan Plumbing Code requirements. We will learn how to properly size both primary and secondary gravity storm water drainage systems, including scuppers, and how to account for adjacent sidewall area drainage.

DECEMBER TECHNICAL SESSION

6:30-7:30 PM

TOPIC: Panel Discussion on Water Treatment

Panelists:

*Moderator
Pam Hartsell*

Rick Atkins

Joseph Ham

Mike Kennedy

CLICK [HERE](#) TO READ BIOS ON EACH PANELIST.

Description: Join us for an insightful and engaging panel discussion about current technologies in domestic water treatment. Water quality can affect the domestic water system in various ways, causing maintenance issues and equipment failure. Our panel of experts will share their insights on various solutions so you can gain valuable information about domestic water treatment and discover how technological innovations are reshaping the way preventative maintenance can be enhanced to ensure our systems stay operational regardless of the available water quality.

New This Year:

Design classes will be centered around the CPD Exam- attend all 7 classes and receive a CPD Study Guide.

About Registration and CEUs:

You will need to register using an Eventbrite link that will be in the email. This allows us to know how many people we can expect. We require sign in/sign out sheets and your CEUs will be submitted to national within 1 week of our event. It may take up to another 2 weeks for the CEUs to show in your ASPE Education log. The PITC does have guest protocols we will have to obey in order to meet there, so please follow all posted signage and procedures.

IN THE KNOW

EMC 45TH ANNIVERSARY HISTORY BOOK IS STILL AVAILABLE!

Cost for printed book - \$50, check or credit card accepted

Pick up @ SES or during a chapter meeting

FREE digital download on the ASPE EMC website.

TABLE TOP SPONSORSHIP PRICING

ASPE Members

- \$200.00 for the 1st table per meeting/per vendor
- \$150.00 for each additional table per meeting/per vendor

Non-Members

- \$250.00 for the 1st table per meeting/per vendor
- \$200.00 for each additional table meeting/per vendor

If a vendor purchases table tops for 3 meetings during the year, a 4th meeting table top will be provided for free.

Commercial Washrooms. Brought to Life.
HANDWASHING & DRYING | ACCESSORIES | PARTITIONS | LOCKERS

CUTTING-EDGE HANDWASHING TAKES SHAPE

The next generation WashBar raises your restroom to new heights by providing touch-free soap, water and drying in an edgy new design for an unforgettable handwashing experience. The single connection point to the sink provides an impressive design element and creates more open space for cleaning.

ADVANTAGES OF THE WASHBAR

- Floating design for a simple and clean aesthetic
- Single connection point to the sink for easier cleaning
- Eliminates the cost and mess of paper towels
- Icons and LED lights to visually orient users
- Smart sensor technology eliminates false activations
- WashBar and bowl work together to keep water in the basin
- Gallon soap capacity to reduce the number of replacements
- Captures soap and water activations for maintenance planning

The new WashBar WB2 is available with the Verge® LVQ Series in Evero® natural quartz, OmniDeck™ 5010 in Terreon® solid surface, or pair with a Terreon solid surface or Evero natural quartz undermount basin with the deck or countertop of your choice.

AVAILABLE IN SIX BEAUTIFUL FINISHES

ALL-IN-ONE WASHBAR

All the fundamentals of handwashing have been thoughtfully designed into Bradley's innovative WashBar.

WASHBAR FEATURES

- CLEAN**
 - Touch-free activation
 - Low level LED indicator
 - Gallon (3.8 L) soap capacity
 - Simply replace soap tank – no cleaning or refilling
 - Liquid and foam soap
- RINSE**
 - Touch-free activation
 - 0.5 GPM (1.9 LPM)
 - Ultra-high efficient 0.35 GPM (1.4 LPM) option where water conservation is a necessity
- DRY**
 - Touch-free activation
 - Heated air stream dries hands quickly and efficiently
 - Adjustable speed for quieter hand drying

VP Technical Report

Pam Hartsell, CPD, PMP

Welcome to the Holiday Season Eastern Michigan!

Our third meeting of the 2023-2024 program saw a big crowd and a room full of sponsors. We held another design class that counted towards attendance for a free copy of the CPD Study Guide, and it did not disappoint! If you're considering taking the exam, this is another great

opportunity to mark off your attendance for the free book and to networking with, and learn from, your fellow chapter members.

Our Design Class was an overview of Sanitary and Vent Systems by a first-time presenter. EMC Treasurer, AYP Liaison and mechanical engineer Rachel Gendich shared her knowledge about these systems for the benefit of our members and guests and she did a fantastic job! You can watch a replay of her class on our YouTube Channel here: <https://youtu.be/SvOEu0mQxLc> (you may need to copy and paste the link in your browser).

Our Technical Presentation was a lively discussion about Interceptors, the different types and applications and how to size them, by returning presenter Silvano Ferrazo of Zurn. You can watch a replay of his presentation on our YouTube Channel here: <https://youtu.be/4wlGmcy1fuE> (again, you may need to copy and paste the link in your browser).

Next month, we'll be learning about Storm Systems, taught by EMC President Bill Grayzar. This will be the third in our series that counts towards attendance if you're interested in a free copy of CPD Study Guide, and we're grateful Bill returning to the stage for second time this season.

The Technical Presentation will be a discussion about the different options for water treatment. We'll have a panel of experts on hand to share their knowledge about this topic. It should be both educational and entertaining!

We'll also be collecting toys for the Engineering Society of Detroit Holiday Toy drive, so if you're in the giving mood, please feel free to bring a new, unwrapped toy to the meeting so we can donate it to one of the many deserving children in our area. These kids did not create the situation they're in, so please consider bringing something to help give them a little hope this holiday season.

As always, please reach out to me if you have any questions.

Your Chapter VP Tech,
Pam Hartsell

VP Legislative Report

William Grayzar, CPD

Code update notifications!

On November 13, 2023 the **2021 Part 7 MPC** (Michigan Plumbing Code), **2021 Part 9a MMC** (Michigan Mechanical Code) and the **2021 Part 8 MEC** (Michigan Electrical Code) were filed with the State of Michigan Bureau of Construction Codes and **will go into effect on March 12, 2024**, according to the State

of Michigan's department of Licensing and Regulatory Affairs (LARA) website. The 2021 Part 4 MBC (Michigan Building Code) and the 2021 Michigan Rehabilitation Code filing and effective dates are pending.

The 2018 Part 7 MPC was and will be the only 2018 code to be enacted and adopted in Michigan. The State of Michigan opted not to adopt any other codes in 2018 and move directly to the 2021 Michigan Codes which will adopt by reference the 2021 editions of the International Codes and the 2023 edition of the NEC along with amendments, deletions, and additions deemed necessary for use in Michigan.

The Code Study Development Group of Southeastern Michigan is currently offering the 2021 International Codes for Sale and purchase and will be offering the 2021 Michigan Codes as they become available. Refer to order sheet included in this newsletter.

On the national level the ICC (International Code Council) and IAPMO are currently accepting code change proposals for modifications to the 2024 International and Uniform model codes. Approved code changes will be enacted into the 2027 editions of the model codes. The deadline for code changes proposals for the model codes are January 8, 2024 for the International Codes and January 12, 2024 for the Uniform Codes.

If there is an area of the code that you feel requires a modification and/or addition, feel free to reach out to any EMC-ASPE Board Member to discuss further. We are also willing to help you with preparing a code change proposal.

Wishing you safe and Happy Holidays!

Bill

VP Membership Report

Josh Pedraja

We want to welcome in a few new members to our Chapter and ASPE Family; Haruka Iwasaki of Diversified Spec Sales and Ashley Collins of SES!! Welcome to the ASPE Family!!

The holiday season is upon us and Thanksgiving is the first holiday checked off the list. If anyone has the opportunity while shopping for Christmas gifts, please consider donating a gift or two for Toy Drive that our chapter participates in each year with the Engineering Society of Detroit.

This month is going to be light reading as most are busy preparing for company holiday parties, friend holiday parties and family visiting or traveling to family. I want to wish everyone a Merry Christmas!!!

Golf update 2024: SAVE THE DATE! Tuesday, June 11th 2024 is our 2nd Annual Golf Outing. It will be held again at The Links of Novi in Novi. Stay tuned for more information!

ATTENTION STUDENTS:

DID YOU KNOW that ASPE also offers scholarships to qualifying students up to \$5,000?! Please check out the Alfred Steele scholarship at <https://www.aspe.org/membership-global-community/membership/alfred-steele-scholarship-application/> for more information and application. **The deadline for entry is January 31st 2024.**

This scholarship is named in honor of Alfred Steele, PE, a long-time member of the American Society of Plumbing Engineers and a visionary and pioneer in advocating education and professional development for plumbing engineers and designers.

Connect with and Follow us on LinkedIn (ASPE Eastern Michigan Chapter). We have up to date announcements and different posts that are educational, entertaining and informative on current events happening in our Plumbing World!

Membership renewal! If you are up to renew your membership, remember to do it today! We don't want to see you go!! There is a new option to be apart of multiple chapters! If you are interested, please keep The Eastern Michigan Chapter as your home chapter and signup for as many others as you wish for only \$80 per chapter. You can also take advantage of Multiple-Year Membership Renewal. Save on your ASPE membership dues if you join or renew for more than one year! • 5% Discount for a two-year renewal. • 10% Discount for a three-year renewal.

Current Members: Let's not forget our mission to bring in fresh faces – we're all about embracing and empowering younger members. They bring new energy and ideas that keep us on our toes and moving forward. Together, we're building something fantastic here, and we're grateful for each one of you who's part of it. I feel this is a great time to challenge you to invite someone to join our chapter! As always, the Eastern Michigan Chapter of ASPE is looking for new members! Do YOU know of any?? Anyone that would benefit in Plumbing Technical Publications – Plumbing Convention and Technical Symposiums - Certifications in Plumbing Design – Plumbing Codes and Legislation – Continued Education Programs and networking with peers throughout the plumbing industry. Please send them my email address and we'll get them signed up with this great organization. vpm.aspe.emc@gmail.com

CELEBRATE EACH DAY LIKE IT'S YOUR BIRTHDAY!!

In celebration of
World Plumbing Day
the EMC-ASPE will be
hosting the following
event at the
March 12th, 2024 meeting:

NASPE racing is a timed race similar to a Pinewood Derby Race utilized in the Cub Scouting Program around the world.

The NASPE Race is themed to celebrate World Plumbing Day.

World Plumbing Day is an international event held every year on March 11 and was initiated by the World Plumbing Council to celebrate the important role plumbing plays in the health and safety of modern society.

EMC-ASPE is encouraging chapter members to design, build and race cars in celebration of World Plumbing Day. A raffle along with trophies, awards and prizes will be provided at the event. Based on the number of entries awarded may be provided for:

- Fastest race time (1st, 2nd and 3rd Place)
- Best representation for World Plumbing Day
- Best representation of a plumbing product.
- Best representation of a plumbing tool.
- Best green design

**Car Kits are Free to all EMC-ASPE Members
you can contact any of the chapter board
members!**

DINNER – RACING - PRIZES

EMC-ASPE Board members will serve as Official Judges for the event and William Grayzar chapter President will serve as the race moderator and official.

OFFICIAL RACE AND ASPE TECHNICAL MEETING:

WHEN: Tuesday, March 12th, 2024.

WHERE: Plumbing Industry Training Center located at 1911 Ring Drive in Troy, Michigan

AGENDA:

- | | |
|--|---|
| ➤ Design Class | 5:00 P.M. till 6:00 P.M. |
| ➤ Race Registration & Weigh-In: | 6:00 P.M. till 6:30 P.M |
| ➤ Dinner | 6:00 P.M. till 6:30 P.M. |
| ➤ Technical Session | 6:30 P.M. till 7:30 P.M. |
| ➤ NASPE Race | 7:30 PM till completion (approx. 8:00 P.M.) |

CODES AND STANDARDS for NASPE Racing are as follows:

OFFICIAL RACE CAR DESIGN BUILD KIT:

1. Official Race Car Kits must be the same as those used for the Cub Scouting program pinewood derby races. Car kits will be available at the ASPE Technical meetings, or they can be obtained by contacting an ASPE board member. The **kits are free for members** and will be available at the December, January and February technical meetings. Official car kits may also be purchased from your local scout store.
2. If you have a child, grandchild, nephew, etc. involved in Cub Scouting, please feel free to use their car for the NASPE race, provided it meets the Specification for Construction requirements. Car must still be registered and weighed-in on the night of the event to be eligible for prizes.
3. Participants may enter more than one (1) car for the event, but only the first car kit is free. Additional kits can be purchased at a cost of \$6.00 each.

CAR SPECIFICATIONS FOR CONSTRUCTION: (Also see sheet included with your official car kit).

1. WEIGHT: 5 ounces **maximum** (but can be lighter). Min. weight of 4 ounces is suggested.
2. LENGTH: 7 inches **maximum** (but can be shorter).
3. WIDTH: 2 3/4 inches **maximum**, and 1 3/4 inches **minimum** between the front wheels and the same between the rear wheels. Otherwise, your car will not fit over the track guide rail.
4. CLEARANCE: 3/8 inches **minimum** from bottom of car to track (rail) top. Otherwise, your car will not clear the track guide rail.
5. WHEELS: You must use the wheels supplied with your official car kit (or similar BSA official racing wheels available at your local scouting shop).
6. Axles do not necessarily have to be placed in the pre-drilled slots, but the axle (nails) supplied in your car kit **MUST** be utilized.
7. **NO**, bearings, moving or loose parts are allowed **ANYWHERE** on or in the car.
8. The car shall not ride on any kind or type of spring.
9. Graphite (or dry lubricant) may be added to the wheels until the car is registered and weighed-in, but not after. **No Liquid or oil base lubricants will be allowed** as they can ruin the racing surface.
10. Magnets are not allowed anywhere on the car as they may interfere with the timing system.

REGISTRATION AND WEIGH-IN PERMITS:

1. All cars must be registered and weighed-in to be eligible to participate in the event.
2. Your official car number will be provided during registration and weigh-in period.
3. Cars will be impounded (retained) by the race staff until completion of the event at which time they will be returned to the participants.
4. If a car is not in compliance with the codes and standards outlined above it will be disqualified and will not be eligible to receive trophies and awards. However, at the discretion of the race official the car may still be allowed to race.
5. If you are unable to be present for the registration and weigh-in period, but still wish to participate, please contact the EMC-ASPE Board or the race official to make arrangements register and weigh-in car prior to March 12th, 2024.

“Good Luck and Have FUN Racing”

ASPE Mentoring Program

The Women of ASPE are excited to introduce ASPE's new Mentoring Program!

This program, which is available to all members of the Society, has been designed to connect ASPE members who have a particular skill set (mentor) with individuals (mentee) who are searching to acquire the same skills to develop and make progress toward their personal and professional goals.

Who Is a Mentor?

A mentor is someone who can help the mentee develop skills for success and long-range career planning, is able to be a good listener, is willing to share experiences and views, is willing to commit time and effort, provides an "open door" to questions and problems, points out both strengths and opportunities for improvement, and has a vested interest in the growth and development of their mentee.

Benefits to the mentor:

- Satisfaction in helping someone mature, progress, and achieve goals
- Meeting and sharing experiences with other mentors
- Personal ongoing support to help the mentee succeed
- Personal fulfillment through contribution to the Society and the individual

Who Is a Mentee?

Having a mentor can contribute to a successful and satisfying career. Without a mentor, that learning occurs mostly through trial and error. With a mentor, even experienced professionals can benefit from the experiences and expertise of someone who has withstood the trial and can help the mentee avoid the mistakes. Similarly, those new to the industry will discover that being a mentee shortens the learning curve for acquiring the skills and knowledge most critical to a fruitful career.

Benefits to the mentee:

- Discover new talents about yourself
- Career satisfaction
- Expand your personal network
- Maximize your strengths

MegaPress® G

Press safer.
Press
bigger.

Connected in quality.

Quick, safe connections on large diameter gas lines.

Viega MegaPress(R)G requires no open flames or added cost of fire watch, so projects are safer and more profitable. Installers can secure gas pipe up to 4" in 16 seconds or less, saving 60-90% on labor costs. That's why professionals choose MegaPressG - the trusted press connection method approved for gas lines ½" to 4".

ALL-IN-ONE SCALD PROTECTION

420-T Series

Now there's no need to install a thermostatic mixing valve below the sink. The new 420-T Series combines Chicago Faucets durability with integrated scald protection. The result is a solid, easy-to-install restroom faucet that complies with ASSE 1070 requirements. With the 420-T, everything you need to meet current building codes and protect users against scalding is built right into the faucet.

Visit chicagofaucets.com or call your local representative for more information.
