What book do you recommend everyone should read? The Fountainhead, by Ayn Rand. Why? This novel is interesting because of many facets. First there is the architectural aspect. The character is based on Frank Lloyd Wright, who has a great influence in the Midwest, and Chicago is known for its architectural ingenuity. Another aspect is the philosophical idea of individualism over collectivism. The main character is always trying to push the boundaries by fighting the status quo.

What are your hobbies outside of work? My hobbies include playing soccer and golf. These are a great way to get exercise while having fun and enjoying a competitive spirit.

If you could play any sport professionally, what would it be and why? I would be a golfer because I could make my own schedule and visit exotic, warm places.

What is your favorite movie? My favorite movie is Blade Runner. It has suspense, science fiction, action, and is relevant to today's thoughts on the role of artificial intelligence.

What is your favorite holiday? Thanksgiving. Why? It's a chance to spend time with family, eat lots of good food, and watch football all day.

Would you rather win the lottery or work at the perfect job? It would be a combination. I'd like to win the lottery and have that security blanket, but I would continue to work as a way to stay busy and feel productive.
