"I do agree with ASPE's stated purpose: to be a global leader and authority in plumbing engineering design to continually improve the safety of the public. Beyond that, ASPE means an opportunity to network with peers, to stay current with the latest standards and technologies, and to further my career. It has provided a platform for me to give back to other ASPE members through my service on the Chapter and Society levels. ASPE also means friends and family — I have established many lasting friendships within the ASPE family."

WHAT IS YOUR GREATEST ACCOMPLISHMENT OUTSIDE OF YOUR CAREER? My greatest accomplishment is one I share with my wife, Terry: it's the family we have established.

WHAT IS YOUR FAVORITE ANIMAL? That would be the barred owl. Seeing them and hearing their cool "who cooks for you" call just mean the great outdoors to me.

WHAT ARE YOUR HOBBIES OUTSIDE OF WORK? Those would include watching our grandkids grow up, hiking, and travel, and I also am a student of military history.

WHAT IS YOUR FAVORITE TYPE OF MUSIC, BAND, AND/OR SONG? Maybe not a single favorite type; it ranges from big band to rock. My favorite band is the undisputed best band ever: The Who. My favorite song is a difficult one to answer — either *True Companion* by Marc Cohn or *Silent Night* by anyone singing it.

IF YOU COULD PLAY ANY SPORT PROFESSIONALLY, WHAT WOULD IT BE? Pro football. I played a lot of sports growing up, and I seemed to be best at football. If I had only been about 5 inches taller, I would now be retired and wearing my gold Hall of Fame jacket.

ARE YOU A MOVIE BUFF? WHAT IS YOUR FAVORITE MOVIE? I am not necessarily a movie buff, but my favorite movie is *Casablanca*.
