

ASPE TechSymposium 2021

Mike LeMaster

Mike LeMaster is the Field Technical Service Representative for Charlotte Pipe in the west and was a high school teacher for 10 years before entering the stormwater industry in 2000. Since then Mike has participated in many projects in the water treatment, waterworks, and plumbing industries and has experience bringing new technologies to the marketplace. Mike holds an M.A. Ed. in Curriculum Design from Gonzaga University and lives in the Seattle area with his wife Yolanda.

Cast Iron Coatings for Aggressive DWV Applications

This session will provide a short history of cast iron soil pipe and will briefly discuss joining methods. The majority of the session will cover various enhanced coatings and aggressive DWV situations. The session will conclude with a hands-on demonstration on cutting and maintaining the integrity of the enhanced coating during installation.
